

What NextGen Will Do For You!

Every flight, whether it is VFR or IFR, actual or forecast, requires an accurate knowledge of available resources. Modern trends in technology have provided new tools such as the NextGen enabled weather, ADS-B, FIS and TIS, and Foreflight applications. This is an important seminar for pilots who want to add to their knowledge base and learn how to use these new NextGen tools, helping them make safer flight decisions. Please click on the link below to see more details and to register for this event on-line!

Directions: Please see map link for directions, seminar will be held in the Conference room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
